OBJECTIVE

Seeking a challenging role to apply technical proficiency and contribute to the success of organization through innovation and problem-solving.

SKILLS

- Java
- Html ,CSS
- C
- Python
- Basics of Javascript

PROJECTS

Oral Cancer Detection

- Successfully developed a machine learning-based system for early detection of oral cancer using transfer learning with a VGG model.
- Thoroughly assessed the model's performance by testing with a diverse dataset of cancerous and non-cancerous oral images, showcasing its effectiveness in distinguishing between the two categories.

BuildEasy

- Implemented extensive catalog functionality allowing users to browse and purchase/rent a wide range of construction materials and equipment.
- Utilized HTML, CSS, and JavaScript to build static web page

CERTIFICATIONS

- Java Full Stack - (Wipro TalentNext)
- Introduction to cybersecurity

INTERNSHIP

Cyber Security Internship

I have successfully completed my technical internship under the Cisco AICTE virtual internship program in cybersecurity

EDUCATION

- **G Pulla Reddy Engineering College,Kurnool** **2021 - 2024**
B Tech,Computer Science and Business Systems-8.08
- **Government Polytechnic College,Proddatur** **2018 - 2021**
Diploma,Computer Engineering-69.51%
- **Z.P.High School,Somayajulapall** **2018**
SSC-8.8
